Project Description: To perform integrative and transformative research on renewable energy by building solar cells that work on artificial photosynthesis mechanism.

List of Collaborators

Prof. M. E. Zandler, Wichita State University  
Dr. Nigam Rath, University of Missouri, St. Louis.  
Profs. W. Kutner and D. Grycko, Polish Academy of Sciences, Warsaw  
Prof. P. V. Kamat, Notre Dame University, Notre Dame  
Prof. Fukuzumi, Osaka University, Japan  
Prof. D. M. Guldi, Friedrich-Alexander-Universitat Erlangen, Germany  
Profs. J. P. Hill and K. Ariga, NIMS, Tsukuba, Japan  
Prof. O. Ito, Tohoku University, Japan  
Profs. Nikolai V. Tkachenko and Helge Lemmetyinen, Tampere University, Finland
